

### Project Overview

The Project entailed preparing concept designs for ANU approval and procuring all approvals including Das, BAs, Fire Engineered solutions and other requirements under local regulations and by-laws for a 6 level, Staged development of 153 bed Modular Student accommodation Complex.

The Project included the delivery of the first stage of Modular accommodation units, consisting of 70 beds including plant & equipment expandable for all stages with common areas, lift, and infrastructure for the entire development.
