

Project Overview

Two 1950's shops in the main street of Mareeba were demolished to make way for extension of the gaming and Sports Bar of the RSL. The structure was strip footings, sand fill and slab on compacted fill, the superstructure consisted of 200mm masonry walls and structural steel. Evaporative cooling was suitable for the Tableland climate. Internal finishes included reflective ceiling, full height wall mirrors, selective carpets, Tasmanian oak dry bars.
